101 North Wacker Drive, Suite 1100
Chicago, IL 60606

Dear Mr. Noyes:

This is in reference to your information request dated July 30, 1992. I apologize for the delay in responding to this request, however, due to the enormity of the request, it has taken much longer to assemble the information than usual.

Enclosed are the maps you have provided and the lists of species that occur on each quadrangle map. The locations have been delineated on the enclosed maps.

Please be aware that the Natural Heritage Database cannot provide a conclusive statement on the presence, absence, or condition of significant natural features in any part of Illinois. The reports only summarize the existing information regarding the natural features or the locations in question known to the Division of Natural Heritage at the time of the request. The reports should never be regarded as final statements on the site being considered, nor should they be a substitute for field surveys required for environmental assessments.

I cannot charge you for the search of our database, but I would like to urge your support of the Illinois Natural Heritage Database by contributing to the Illinois Nongame Wildlife Conservation Fund. This project required approximately 30 hours to complete. A charge of \$30.00 per hour is typically charged for information requests, which would suggest a \$900.00 donation. Such contributions may be mailed to the above address. We appreciate your support of this important source of information.

Our ability to satisfy information requests of this magnitude are greatly limited. Please contact me if you anticipate having to submit similar information requests in the future.
